

Altnets

**THE BRIGHTER
CHOICE FOR DATA
CENTRE INFRASTRUCTURE**

INTRODUCTION

BRIGHTER.

BOLDER. BETTER.

Your Partner

IN FUTURE-READY DIGITAL WORLD

Altnets was founded in 2020 to support the UK's digital infrastructure evolution. We are now a trusted partner to data centres across the UK - delivering specialist products, technical support, and end-to-end supply chain solutions for critical connectivity environments.

Whether you're building new capacity, refreshing existing networks, or integrating across hybrid systems, Altnets provides the components, knowledge, and agility you need to scale.

SMARTER PROCUREMENT. SEAMLESS DELIVERY. ALWAYS ON

In **Data Centre** environments, failure isn't an option. That's why Altnets goes beyond distribution - delivering **tailored solutions** that support the performance, uptime, and flexibility modern data centres demand.

We act as an extension of your team - **simplifying** complexity, accelerating delivery, and **de-risking** every phase of your deployment.

**Hyperscale, Colocation,
Enterprise**

AI, HPC & Edge

5G & Telco

KEY BENEFITS

End-to-end support for both inside plant (ISP) and outside plant (OSP) infrastructure

Proven expertise supporting all data centre environments

Vendor-agnostic sourcing for maximum choice and interoperability

Agile stocking, kitting, and logistics to support **just-in-time delivery**

Custom BOM reviews, SLAs, and stock management aligned to your deployment

THE TEAM

NETWORK EXPERTS BUILT FOR MISSION-CRITICAL WORK

With **over 100 years of combined experience** across network infrastructure and supply chain management, our team is designed to serve data centre operators with precision. We work collaboratively, intelligently, and transparently, becoming your operational advantage from day one.

BRIGHTER.

BOLDER. BETTER.

▶ **Dedicated account managers** for consistent project ownership

▶ In-house technical consultants with **manufacturer experience**

▶ **Design specialists** to support material selection and layout planning

▶ Product compliance and quality assurance **experts**

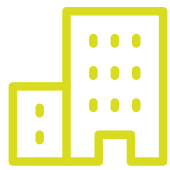

We align with your priorities performance, speed, and reliability, because we've been in your shoes.

End-to-End Control

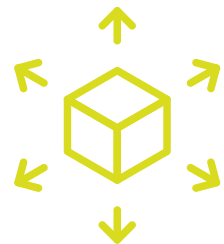

OFFICE

Based in Brighton Marina, our operational hub includes sales, logistics, finance, technical support, and customer service.

LOGISTICS

Tracked, independent vehicles with dedicated import/export controls for fully visible, reliable delivery - even on short notice.

From Design to Delivery

warehouse

4,000+ pallet capacity in near Gatwick Airport with bonded and standard stock holding. Agile kit preparation for staged delivery.

ESG COMMITMENT

SUSTAINABLE INFRASTRUCTURE, BUILT RESPONSIBLY

As data centres grow in scale, so do **environmental and social responsibilities**. Altnets supports your ESG goals through conscious sourcing, operational transparency, and community engagement. We're proud to support the UK's leading non-profit networks and engage actively in industry ESG conversations.

Environmental

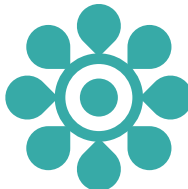

Hybrid and **electric vehicle** fleet

Goods distributed in **recycled packaging**

Cloud-based operations for a **paperless**, low-emission footprint

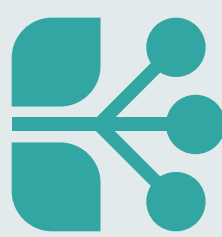

Centralised logistics to reduce transport-related carbon emissions

Governance

- ISO 9001 & 14001 certified
- Cyber Essentials and Good Business Charter accredited
- Manufacturing audits and ESG-aligned vendor selection

Social

- Community **sponsorships** and charitable initiatives
- Local employment** and apprenticeship programs
- Paid **volunteer days** for staff supporting local causes

PRODUCTS

COMPREHENSIVE INFRASTRUCTURE SOLUTIONS – INSIDE AND OUT

We supply the **full ecosystem** of data centre infrastructure - carefully sourced and expertly supported.

ODFs

Cabinets & Containment

PDUs & UPSs

Copper Systems

Fibre Cable & Cross
Connects

Raceway & Cable Tray

Fibre Systems & Connectivity

BRANDS

THE BEST NAMES IN NETWORKS INFRASTRUCTURE

We work with **leading global manufacturers** to guarantee quality, compliance, and performance at every level. If you need it for your data centre - we can supply it, support it, and integrate it.
